100 ML DUAL TOP AND 60 ML TWIST TOP BOTTLES

FEATURES

DUAL AND TWIST TOP
OPENING

BOTTLE SIZE

NON-DRIP NO-SPILL DESIGN

COMPACT DESIGN

NON-RESEALABLE BOTTLES

BENEFITS

- **No syringe required!** Twist top and Dual Top bottle design creates controlled pressure dispensing from a steady forceful stream to a gentle measured drop.
- 100 ml bottle as outlined in the **Nursing Best Practices Guidelines** for the management of pressure ulcers!
- Prevents fluid from running down the side of the bottle compromising sterility.
- More efficient. Less product used in wound and device irrigation procedures.
- Prevents reuse which **may reduce the threat of cross contamination** associated with large pour bottles.
